Twin Charging Dock

USER'S GUIDE

for Wii™

dreamGEAR®

www.dreamgear.net

Set Up:

1. The Twin Charging Dock features 2 charging slots for your Wii remotes and 2 holding slots for your Wii nunchucks.

2. Plug your Wii power cable into the Twin Charging Dock's power splitter.

3. Plug the male end of the Twin Charging Dock's power splitter into your Wii.

4. Replace your Wii remote batteries and battery cover with the included rechargeable battery packs.

5. Place your Wii remotes and nunchucks into the appropriate slots. RED glowing effects let you know that your Wii remotes are charging.

6. When the glowing effects turn BLUE, your Wii remotes are fully charged and ready for use.

Note: The Wii nunchucks do not have internal power and the nunchuck slots in the Twin Charging Dock are for storage and display only.

Rechargeable battery pack note: The battery packs feature a small "sync" hold for syncing your remotes to your Wii console without removing the cover.
